DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Abrams et al.

Abrams et al. discloses a guiding member having a proximal portion (11) secured to the distal portion (12, 13) at its distal end and a distal portion of superelastic material (Col. 6, Ins. 62-69) and a distal portion of that segment having altered properties (Col.7, Ins. 19-54).

Allowable Subject Matter

3. Claims 7 and 10 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

Abrams et al discloses a guidewire as claimed having a proximal portion (11) secured to the distal portion (12, 13) at its distal end and a distal portion of superelastic material (Col. 6, Ins. 62-69) and a distal portion of that segment having altered properties (Col.7, Ins. 19-54).
